GERMANS USE POISON GASES

Win Temporary Point East of Rheims, But French Retake It

FIGHTING IS FIERCE

Hill Seventy Retaken by Germans—Heavy Artillery Fire South of La Basse Canal.

Paris, Oct. 20.— Having failed in their attempts to drive the French from their newly acquired occupations in the Champagne, the Germans today turned their attention to a new region just east of Rheims. Here on a front of a little more than six miles —from La Pompelle, to Prosnes—the Germans made a severe attack with large forces under cover of clouds of asphyxiating gas and preceded by a heavy artillery preparation.

The Germans were successful in driving the French from their first line trenches, but later in the day an energetic counter attack recaptured all points which remained in the hands of the Germans. According to the statement of the French war office tonight the German losses in this ineffectual attack were considerable.

The purpose of an attack in this region can easily be understood. Prosnos lies about five miles west of Auberive, the western extremity of the recent French effective movement to Champaigne.

Had the Germans been able to break through the French lines at this point they would not only have cut off the city of Rheims from the southwest, but as well would have compelled a retreat on the line further to the east; that is, they would have gained in this movement the purpose which they failed to attain in their attacks on the new French positions in Champagne.

Elsewhere on the front during last night and today there has been little more than artillery fighting, while in the Vosges the French destroyed some German mine works at Woilu by counter-mines.

During Monday night the Germans renewed their heavy infantry attacks east of Souchez, but the French, by artillery and rifle fire, repulsed the attack.

EXECUTION OF WOMEN

Miss Cavell one of Three Females Put to Death in Belgium

Amsterdam, Oct. 20—Miss Edith Cavell, the English nurse reported shot at Brussels by the commander of a German firing squad, in front of which she fainted, when brought out to die for espionage, was only one of five, including two other women, who paid the death penalty on the same charge, according to the Echo de Belge today.

Besides Miss Cavell, the victims were listed as follows.

Countess Jeanne de Belleville.

Mme. Louise Thuliez, a French woman.

Philippe Dany, an architect.

M. Sevedin, a chemist.

The Echo de Belge says Gen von Bissing, German Governor of Belgium, posted in the Belgian town halls announcement of the pronouncement of the death sentences by court martial.

The proclimation gives the names of 23 persons who were sentenced to varying terms of imprisonment, including a ten-year term for the popular Princess Maria de Croy, of Bellignies, who comes from one of the highest families of Belgian aristocracy.

Rome, Oct. 20—Pope Benedict, at the request of the British and Belgian legations, has interceded with Emperor William on behalf of Baron de Hemphuinne, the Countess de Belleville, Mlle. Thuliez and seven other French persons, who have been condemned by the Germans to be shot.

Cardinal Hartmann, archbishop of Cologne, has informed the pontiff that Emperor William has suspended the execution of the sentences against the prisoners in order that he may make a more detailed examination into their cases.

BANDITS SHOT DOWN

Mexicans Who Wrecked Train In Texas, Killing Three men, Trailed by Posses.

Brownsville, Texas, Oct. 20.—Ten Mexicans yesterday paid with their lives for alleged complicity in Monday night's wrecking of a St. Louis, Brownsville and Mexico passenger train on the outskirts of Brownsville, the killing of three Americans and wounding of four others.

Peace officers said last night they had clues to other Mexicans connected with the robbers. No secret was made that more would be killed if civilians and posses catch them.

Sixty Mexicans, most of them dressed in the uniforms of Carranza soldiers, wrecked and "shot up" a south bound passenger train on the St. Louis, Brownsville and Mexico Railroad Monday night.

The bandits escaped after robbing the passengers and looting the baggage car.

The wreck occured five and a half miles north of Brownsville. The Mexicans afterwards burned a 300-foot bridge to delay pursuit. Telephone wires also were cut.

The bandits, who are reported to have been lead by Luis de la Rosa, noted Mexican of Matamoras, moved the bolts and spikes from a rail and fastened a wire to each end of the loosened steel. When the train reached the scene the rail was jerked from its place and the locomotive and two forward cars went into the ditch.

Before the passengers recovered from the shock, five Mexicans entered the first car and ran through the train shouting "Death to the Gringoes!" and "Death to soldiers!" Passengers were told to hand over their valuables and any show of resistance was instantly met by clubbed revolvers. Several passengers were forced to remove their shoes and outer clothing.

The scarcity of crabs in the Hampton Roads section has created a crisis in the crabbing industry that not only has caused a number of firms to go out of business, but threatens in a few years to exterminate the crab as a commercial seafood product of this section. The persistent taking of mother crabs during the spawning period—June, July, and August—is said to be responsible for the scarcity that eventually would kill an industry once regarded as one of the most important around Hampton Roads.

JERSEY WOMEN LOSE THE BALLOT

Over 50,000 Majority Cast Against the Suffrage Amendment

TO WAIT SEVEN YEARS

Defeat of Other Proposed Change in the Constitution Prevents Submission of Question.

Equal suffrage was lost to the women of New Jersey, by a heavy majority yesterday. The majority may go to 40,000. The exact figures were not ascertainable at midnight because the count of the vote was slow, but enough were in hand to indicate that only one of the 21 counties cast a majority in favor of the amendment The single exception is Ocean county bordering on the Atlantic Ocean, and with a large agricultural and fishermen vote. Its estimated majority in favor of the amendment is 300.

James R. Nugent, Democratic leader of Essex county, and who was a big factor in the opposition, declared at midnight that that county has given at least 20,000 against suffrage. If that figure is carried out the total majority in the State will be near 50,000.

The city of Trenton and Mercer county, early returns indicated, voted against the amendment by a large majority. President Wilson's own precinct, the Seventh, of Princeton borough, voted against suffrage by a majority of more than 2 to 1; the figures being. For, 64; against, 150.

As both the other proposed amendments to the State Constitution were also rejected by a heavy majority the advocates of equal suffrage will be obliged to wait seven years before they can hope to have another vote upon the issue. A proposed amendment may be offered in the Legislature five years hence, and, if adopted by that and the succeeding session it can be submitted to vote and that will mean 1922.

The anti-suffragists said the result was just what they had looked for because the people of New Jersey are not ready to adopt the radical program of the West. They claim that only a small proportion of the voters of the State were willing to risk the change, and that those who really favored it were outspoken, while the vast majority went about their business with nothing to say upon the question until it came time to cast their ballots.

CARRANZA RECOGNIZED

People in Mexico City Rejoice Over Advent of Peace.

Venustiano Carranza, was formally recognized yesterday as the chief executive of the republic of Meixco by the governments of the United States Brazil, Chile, Argentina, Guatemala Bolivia, Uruguay, Columbia and Nicaragua.

Diplomatic representatives of the first six Latin-American countries selected in the order of their rank here, were parties to the pan-American conference on Mexican affairs, but the action of Colombia and Nicaragua indicates that all the other republics of the western hemisphere will follow the lead of their sister nations in extending recognition.

Each of the governments sent a letter to Elisco Arrendondo, personal representative in Washington of Mr. Carranza. All were couched in the same form, and that of the United States added a formal expression of an intention soon to accredit an Ambassador to Mexico.

The news that the government of Gen. Venustiano Carranza would be recognized by the American republics was received in Mexico City, with scenes of general rejoicing. The bells in the cathedral were rung, and there were fireworks, the blowing of whistles and scenes of general animation.

JONAH AND THE WHALE

Theological Professor Tells Ministers Story is an Allegory.

Philadelphia, Oct. 20.—Dr. Robert Rogers, professor at Drew Theological Seminary, read a paper before the Methodist Ministers Association yesterday on "The Book of Jonah," which, he said, was a much-maligned story, and the butt of many an innocent joke. It was only because this great book was not understood, he said, that it had been treated so disrespectfully.

Dr. Rogers explained the seemingly impossible story of Jonah being swallowed by the whale as a true narrative, of the divinely-inspired Scriptures, but insisted that the story was an allegory, with a symbolic meaning and should not be taken literally. He showed that frequently in the Scriptures God told the most salient truths by illustrations, and that many of the Bible narratives were never read in their literal meaning.

"The story of Jonah," said the speaker, "is only one of the many incidents related in Scripture showing plainly that salvation was not meant only for the Israelites, though they were His chosen people. This was evident particularly in the tenth chapter of Genesis when God said plainly that salvation was meant for all nations who were objects of God's love and compassion. In the book of Amos the Creator said again that He was interested in all the nations of the world. In the book of Jonah, the prophet was piqued that God did not destroy Nineveh according to His threat, and he was severely reprimanded by visible means. The story of his being swallowed by the whale was only a symbol of God's punishment and the restoration of the prophet to the favor of the Creator after a short time."

At the conclusion of his address Dr Rogers was showered with all sorts of questions. Some of the older ministers who believed the Scriptures literally were loth to think the story of Jonah a fable, and were anxious for the professor to prove his deductions But Dr. Rogers insisted that he had only common sense to guide him in the analysis of his subject, based on the other books of Scripture, but that if the minister wanted any theology on the matter he must decline any further explanation and leave his brethren to determine the fine points of his argument at their own discretion.

RUSSIA AND BULGARIA.

Czar's Manifesto Says Ferdinand's Course is Treason to Slav Cause.

Petrograd, Oct. 20.—The following imperial manifesto has been issued:.

"We hereby make known to all our loyal subjects that the treason of Bulgaria to the Slav cause, prepared with perfidy since the beginning of the war, has now, although it seemed impossible, become an accomplished fact Bulgarian troops have attacked our loyal ally, Serbia, already bleeding in the struggle against a stronger enemy.

"Russia and the great powers, our allies, tried to dissuade the government of Ferdinand of Coburg, from taking this fatal step. The realization of the ancient aspirations of the Bulgar people regarding the annexation of Macedonia was assured to Bulgaria by other means, in conformity with Slav interests, but under methods prompted by the Germans and fratricidal hatred of the Serbians triumphed.

"Bulgaria, our coreligionist, liberated but a short time ago from the Turkish yoke by the fraternal love of the Russian people, openly took sides with the enemies of the Christian faith, Slavism and Russia.

"The Russian people regard with sorrow the treason of Bulgaria, which was so near to it until these last few days, and, with bleeding heart, it draws its sword against her, leaving the fate of the betrayer of the Slav cause to the just punishment of God."

SYNDICATE TO BUY TREDEGAR PLANT

Richmond Iron Works Will Be Enlarged to Fill Contracts

A MUNITION PLANT

Three Million Dollars, It Is Said, Will Be Paid for Property by Northern Interest.

Richmond, Oct. 20—Though officials of the company would have nothing to say for publication, it is learned on good authority that negotiations for the purchase by a syndicate representing the steel interests of the country, of the plant of the Tredegar Iron Works, are nearing a satisfactory conclusion.

It is expected that the sale of the Tredegar property will be concluded within a few days and that within a short time the new owners will have remodeled and enlarged the works so that large munitions orders may be filled.

For some time past the Tredegar works has been turning out large ammunition orders for the United States Government, but it has not, it is asserted, accepted foreign munitions contracts. With the transfer of the plant to new owners and its enlargement, orders will be taken from foreign powers as well as from the United States.

The syndicate now about to conclude negotiations with the Tredegar Company, which is controlled by the Anderson family, has an option on the property for which it paid a high figure. The price offered by the syndicate for the plant is about $3,000,000, and this is to be paid in cash it is understood. The Tredegar Company is capitalized at $3,000,000, of which $1,000,000 is outstanding.

Several representatives of Northern steel interests have been in Richmond Tredegar Company has been gone over recently, and the plant of the Tredethoroughly with a view to ascertaining what changes should be made to bring the plant's capacity up to several times its present output. If the deal is put through, and there is little reason to believe it will not be, the plant will be greatly enlarged and much new machinery will be installed.

There will be given employment to a large number of skilled working men as well as to hundreds of laborers. With the addition of the larger Tredegar plant to those already operated here by the American Locomotive Company, Richmond will become one of the largest munition manufacturing centers in the United States

The opening about the first of the year of the new electric steel funace on Belle Isle by the Old Dominion Nail and Iron Works for the production of both low and high-grade steels, will employ several hundred men. The new steel furnace will also bring close to the Tredegar Works and to the Locomotive Works a supply of steel for their consumption in the manufacture of munitions.

LOSS OF CONFIDENCE

London Paper Says English People Are Being Hoodwinked

London, Oct. 19—The Daily Mail accuses the cabinet of "daily outrageously hoodwinking the public" and of suppressing the truth about the war.

"Things have gone so far," says the paper, "that some cabinet members are now afraid to let the truth be known. We say plainly and take the responsibility for saying it that it is not true, as every German known and every Turk knows, that we have won a great victory at the Dardanelles. It is not true that the Germans have shot their last bolt in Russia. It is not true that there is any evidence of decline in the Turkish moral.

"We are convinced that if only a portion of the truth were known to the public, there would be a thorough by British uprising in favor of voluntary or any other form of national service.

"The British will rally round any man or group of men in whom they have confidence. They can have no confidence, however, in those who are hiding the facts.

SERBIANS WIN AT SHABATZ

Assume Offensive and Defeat Both Invading Foes Near Belgrade

NISH RAILROAD CUT

Allied Trops Constantly Marching and Landing at Saloniki —Naval Demonstration by Italy.

Geneva, Switzerland, Oct. 20. — The Serbians have repulsed the Austro-Germans heavily north of Shabatz a Bucharest message said today.

Serb forces are said also to have assumed a vigorous, successful offensive about Passarowicz. The Bulgarians are described as badly beaten at Ortakoii.

It is said that the invaders are retreating in disorder from Shabatz, Fighting, it was stated, still raged about Passarowicz.

Shabatz is a northwestern Serbian town on the Save river, forty miles west of Belgrade. Passarowicz, was taken by the Austro-Germans several days ago. It is thirty miles southeast of Belgrade, 12 miles in the same direction from Semondria, ten miles, south of the Danube, and highly important as controlling the lower valley of the Morava.

London, Oct. 20—So far as the Dardanelles and the Balkans are concerned, a good deal of the pessimism which reigned a week ago has disappeared. It is believed that instead of any idea existing of abondoning the attempt to open the straits and sea route to Constaninople, the appoinment of General Monro means a more strenuous effort, and that when the right moment comes the Italian navy if not the Italian troops will co-operate.

It is known that the forces on Galipoli have not been weakened for the Balkan campaign, and while the task is difficult the majority of the British public is confident that it will ultimately be accomplished.

In the Balkans the Austro-Germans and Bulgarian armies continue to claim progress against the Servians but, except in the north, where the Serbs are being forced back into the mountains, the various reports do not go far toward clarifying the situation.

The Bulgarians have cut the railway between Uskup and Nish, so it is likely that except in the extreme south, where they have the support of the Anglo-French troops landed at Saloniki, the Serbs are falling back to stronger natural positions, Istip and Kotchana, it is said, have already been evacuated.

Berlin. Oct. 20—The Austrian army which is invading Servia over the Save front along the northwestern border apparently has its movement well under way, after meeting with determined opposition from the Servians. Army headquarters announce the capture of the town of Obrenovatz. South of Belgrade on the Danube front the Austrians have made a further advance. The troops of General von Gallwitz have occupied several points of strategic importance.

The War Office also announces that the Bulgarian army of invasion has captured the Servian town of Varnya on the Railroad between Saloniki and Nish.

Paris. Oct. 20—The Servians are offering stout resistance to the Teutonic advance in the Semendria section, according to information from Nish received by the Journal. A wireless message sent by the Austrian general in charge there to Field Marshal von Mackensen, and intercepted by Servians, is said to be as follows:

"Impossible to accomplish my task successfully unless you send heavy reinforcements immediately.

It is reported that a Bulgarian regiment refused to fight against the Serbs at Kadibogatz, near Kniagevatz and killed its colonel. The regiment, it is said, was surrounded and decimated by the rest of the division.

RUSSIAN OPTIMISM

Minister of Interior Believes Germany is Exhausted.

Petrograd, Oct. 20.—Public confidence in the immediate future is gradually being re-established here. Week follows week without bringing any news of decided German advances, while the Russian successes multiply and gain in scope.

The new Minister of the Interior, M. Khvostoff, replying to a question as to the proclamation of martial law at Moscow said:

"The Germans have reached a condition of utter exhaustion. They have really lost the war and will now strive to put a drag on our activity and the production of munitions, by stirring u pstrikes and causing constirring up strikes and causing conmeans of transport."

Until a day or two ago the chief object of the German efforts for some weeks had been Dvinsk, and the approaches to the town from the west had been the scene of as hard and bloody fighting as any in the present war. Now for 24 hours the enemy has remained passive on almost the entire extent of that section of the line The lull is attributed exclusively to the enormous losses of the enemy who, in spite of all his efforts, has been unable to keep up the strength of the seven corps with which he was operating here.

RAILROAD CARS BURN

Two of a Long String Discarded by Southern Railway South of St. Mary's Cemetery.

At an early hour this morning two box cars belonging to the Southern Railway, which had been discarded, were found to be burning on a track adjoining St. Mary's cemetery on the south. They were virtually destroyed before firemen could extinguish the flames, although other cars in the long string were saved.

Many cars belonging to the Southern Company, which have outlived their day of usefulness, have been placed south of this cemetery. They afford a temptation to pyromaniacs, and it has been suggested that they are likely to be found burning at any time. Their proximity to the fence of the cemetery and but a few yards from monuments and tombs, causes lot owners to be anxious, as should a stiff southerly breeze be blowing when a fire breaks out the fencing around the enclosure would be destroyed and stone work in the cemetery badly damaged.

Many discarded cars are in the triangle formed by Union and Wilkes streets and the Strand. Two were recently destroyed by what was believed to have been an incendiary fire.

The total revenues of Nelson county in 1914 was $46,710.34. Which, in seven years, would total $326,970, or $12,405 less than the $339,375 the Thomas F. Ryan estate is due the county. Under the provisions of the new state statutes governing the taxation of the Ryan estate in Nelson that county stands to receive at one fell swoop something like $339,375 in omitted taxes from the Ryan estate The county proposes for itself a very merry Christmas and may possibly abolish taxes of all kinds for the ensuing six or seven years.

Ward, of Philadelphia, chaffeur for Attorney Baune of that city, and Walter Hodges, of Headwaters, Va., were injured yesterday afternoon in an automobile accident on the Shenandoah Valley pike near Edinburg. Ward's spine was severely injured and his condition is serious. Hodges suffers from a crushed leg, twisted knee, ugly scalp wounds and numerous cuts and bruises. Ward was returning to Philadelphia from Hot Springs, where he had taken Attorney Baune and his family. Hodges was traveling with him part of the way. Only several weeks ago five members of G. H. Blakemore's family, of Harrisonburg, were injured at the same spot.

ENGLAND'S HOME TROUBLES

One of the greatest troubles with which Great Britain has to contend at the present time is the extraordinary and harmful loquacity of politicians, editors, war correspondents, chronic fault-finders and several million other people and the too great reticence of the overnment in giving information about matters concerning which the public seems to think it should be kept fully posted. How far the attitude of the Government is responsible for the pessimistic and censorious tone of its critics it is difficult to say, but it must be admitted that John Bull is giving an exhibition of the perils of too great freedom of speech which is not pleasant to witness. There should be a limit to such license, and a lesson might be drawn from our own civil war, when Lincoln suspended the writ of habeas corpus and clapped into jail hundreds of offending editors and others who antagonized the national cause.

The Philadelphia Record in commenting upon present conditions says:

From the distance of 3000 miles the British Government seems to have worked wonders, and if it has made mistakes, that can also be said of Germany, Russia, Austria and all the other combatants. Even the good deeds of the coalition Cabinet are turned against it. The London Times complains biterly because the highly creditablt achievements of the British forces in Mesapotamia are almost ignored officially. Little attention has been paid to the fact that the British have carried on a most successful campaign against the Turks in that far-distant region and that they are now the possessors of a district which is potentially one of the most fertile in the world. Incidentally the British approach to Bagdad makes a good sized hole in the grandiose German plans for carrying a campaign of conquest to the Persian Gulf and thence on to India. The whole operation may clearly have military and diplomatic consequences of the utmost importance, and there may be the best reasons of state for not laying too great present emphasis upon the success that has attached to it.

As Americans we probably have no right to criticise John Bull's grouchiness in these matters. We have the same unlovely failing. There is a New York paper, Republican, of course, which heaps the most virulent abuse upon President Wilson because he took a firm stand in the exchange of notes with Germany over the loss of American lives though the attacks of German submarines, and looks upon the American diplomatic victory as almost a crime. This paper is not pro-German. Indeed, it is strongly anti-German. But it holds the curious view that, unless one is physically able to thrash a bully or ruffian who insults him, the aggrieved party has no right to express indignation over ill-treatmeat. Only soft words must be used for fear of exciting resentment, and no nation without a powerful army and navy has a right to use words that lead to vigorous action. For sheer pusillanimity and idiocy nothing that is being said in Great Britain approaches such an American utterance. But we think nothing of it because the nation is at peace, and Republican editors are hard pressed to find cause for grumbling against the Administration. On the principle of any port in a storm, any lie or misrepresentation will answer the purpose. That is the Anglo-Saxon fashion on both side of the Atlantic. Bad as it is, we would not exchange it for the muzzle placed by the Kaiser's Government upon the German press.

It is the old, old story. The Southern Confederacy had its critics and pessimists, as did also the northern section of the country during the four years' civil war.

POWER OF ADVERTISING

Counseling 124 business men at the luncheon of the Walnut Street Business Association of Philadelphia, to direct their words to women and to use as their advertising medium the local newspapers, Robert H. Durbin, president of the Poor Richard Club, delivered a talk on advertising yesterday that gave many of his listeners a new idea of the science. His words apply to Alexandrians as well as to Philadelphians. Among other things he said:

I am convinced that no matter how large or how small, no matter how popular the line or how exclusive, no matter where the business is located, there are very few concerns which cannot profit by judicious use of printer's ink. It will be well to bear in mind that the busy corner and the crowded centres of trade are made so by advertising. I believe the newspapers the most effctive medium for the average retail merchant.

The consumer pays for advertising, but in the exactly the same sense as he pays for the machinery that turns out ever so many more pieces than does human labor. Write your advertisements briefly, but omit no point you want clear. Do not try to sell the articles solely through the advertisement—leave some of the task to your salesperons, who is trained to clinch the sale. Avoid extravagant statements, for the customer who learns once your advertisement was exaggerated will discount your next statement. Eventually you will get the name of being a beat.

Aim your copy at the woman reader. That's an old, tried-and-found-true rule of newspaper publicity. Perhaps you know that 80 per cent. of the purchasing in retail stores is done by women. The men think they do the buying, but they really do not. The women are regular readers of advertisements, as you can see in your own households.

ANOTHER TERM FOR SWANSON.

It has been apparent for some time that Senator Swanson will have no opponent for the position he is filling so satisfactorily. In which event the formality of a primary will be unnecessary, he being declared the nominee of his party by the State Central committee. A Democratic nomination for office in this State is tantamount to election. This means that Mr. Swanson will be recommissioned by the State of Virginia to serve another six year term, beginning March 4th next and continuing until 1922.

The Danville Register says:

We are gratified at this recognition of the valuable services of Senator Swanson to his State, not merely because we believe he merits the honor and is qualified to render valuable legislative service, but because the retention in office of such an experienced man will tend to strengthen and increase Virginia's influence in the councils of the nation. It is due primarily to the fact that the Virginia congressional districts and the State at large have retained their representatives and senators in the public service that these officials have attained their commanding influence in the two bodies. The representative or the senator, granting his ability, is advanced in his committee assignments by continuous service until in a few years he attains the position of ranking member or even chairman of some important committee.

Mr. Swanson is now chairman of the Committee on Public Buildings and Grounds, ranks third on naval Affairs, third on Postoffices and Postroads, third on Education and Labor and sixth on Foreign Relations. The retirement of other senators by failure of re-election will doubtless mean his advancement in rank on several of these committees. A new senator would have to begin at the bottom and it would take him several years to attain a position of real influence and value on important committees, in which most of the really momentous legislation is practically adopted. It is due to seniority of service in a large measure that Virginia has such influence in Congress now. Mr. Hay is the chairman of the Military Affairs committee of the House; Mr. Glass of the Currency and Banking committee; Mr. Jones o fthe Committee on Insular Affairs, Mr. Flood is the ranking member of the Foreign Affairs committee, while Messrs. Saunders, Carlin, Holland and Watson rank high on several important committees. In a word, Virginians are advisers to the administration and influential men in shaping the important legislation to come before Congress.

But aside from the mere matter of seniority, Mr. Swanson's long legislative experience in the House prior to his elevation to the Senate makes his advancement even surer. For more than five years he has served in the Senate, and prior to that time he had been a member of the House for fourteen years, giving him congressional service of more than twenty years before his present term expires. His re-election for six years from March 4th next will mean a service of nearly twelve years in the Senate or of about twenty-six years in all, including his fourteen years in the House. These honors have been won on his merits in campaigns before the people. In addition to all this, he served four years as governor of Virginia and was one of the most progressive executives the commonwealth ever had.

Certainly it would be to the distinct advantage of Virginia to retain its junior senator in the service, and we do not anticipate that any aspirant who sought to displace him would be successful.

AN ENGLISH CRIME.

(Richmond Journal.)

Now it looks as if must give some serious attention to the conduct of the English at sea. Ambassador Bernstorff has secured and presented to our Department of State affidavits regarding the sinking of a German submarine by the British auxiliary vessel Baralong, August 19. The submarine had overhauled the British merchantman Nicosian, used in transporting mules and horses from this country to England. This was fair and proper spoil of war and the German commander strictly obeyed rules of the game. He gave the crew of the Nicosian warning and time to get off in their small boats. As he was preparing to destroy the vessel, the Baralong ran up, flying the American flag and with the American colors painted on her sides. As she opened fire on the submarine, the American flag was hauled down and the British flag was hoisted. The submarine was sunk, but a number of members of her crew jumped clear and began to swim. The affidavits say that several of the Germans were murdered by members of the crew of the Baralong, acting under the orders of her captain, after they had reached the Nicosian and had climbed to her decks by the ladders. Some of these men were killed with their hands up and the captain of the submarine was shot deliberately with a rifle while he was swimming with one hand and holding the other up in token of surrender.

This butchery is disgraceful and almost inconceivable. The assassination of the Lusitania was bad enough, but this, in some respects, is worse because more deliberate and cold-blooded. So far as we can recall, it is the first instance in all the history of the sea of sailors murdering other sailors swimming for their lives and ready to surrender.

All we can do, probably, is to send in a protest against the use of our flag by British war vessels in such circumstances and to express very strongly, in the name of humanity and of civilization, condemnation of such crime as this British crew is accused of committing. That would be proper, decent and timely.

Secretary of the Navy Daniels today announced his decision in regard to the increase of pay over the October 9 scale asked by the machinists of the Washington Navy Yard. The Secretary declined to accede to the proposals of the machinists, who asked to be put on the same rating as the tool makers. Mr. Daniels will ask Congress to provide this year for an increase of 11,500 men for the navy, 7,500 sailors, 2,500 apprentice seamen and 1 500 marines.

The Virginia debt commission took a short course to an understanding with West Virginia at the end of its meeting in Washington yesterday. Ways and means had been considered for collecting the $14,000,000 that the Supreme Court of the United States has decided West Virginia must pay as its share of the Old Dominion bonded debt, and finally a letter was sent to Gov. Hatfield asking him what the people of West Virginia were going to do about it, and whether he (the governor) intended or not to call a special session of the legislature to devise methods of meeting the State's obligation. It is known that a special assessment will have to be levied, which only the legislature can order, but as Gov. Hatfield is a candidate for United States senator and the special assessment is not popular, it is rather expected that he will be slow to convene the legislature for such a purpose.

SUFFRAGE DEFEATED

Between 50,000 and 60,000 Majority Against Amendment in New Jersey.

Jersey City, N. J., Oct. 20—New Jersey registered at the polls yesterday an emphatic "no" to woman's appeal for the ballot. Indications early this morning were that the white and yellow banners of "votes" for women" had fluttered down to defeat in each of the State's 21 counties and that the majority against adoption of the constitutional amendment to enfranchise women was between 50,000 and 60,000.

Washington, Oct. 20—President Wilson returned to Washington last night from Princeton, N. J., after casting the first ballot ever given by a chief executive of the United States in favor of woman suffrage.

New York, Oct. 20—A Washington dispatch to the New York Times says: "The attitude of Mrs. Norman Galt, fiancee of President Wilson, on the votes for women was made known today when, without allowing herself to be interviewed, Mrs. Galt permitted the statement to go out that she was not for suffrage."

Rev. Polk Keiseder, a Baptist minister, of Hagan, Lee county, died Sunday from self-inflicted wounds. He was 46 years old, and was recently released from a hospital, where he was under treatment for mental derangement. He had been out of the hospital but a short while when he slashed his throat with a knife.

ITALY DISAPPOINTED

(Birmingham Age-Herald)

The announcement that Italy finds herself unable to assist her allies in the developments in the Balkans again brings to the fore the question of the effect that the participation of Italy has had.

Italy has been the disappointment of the war, for the entente powers, and for all visible good she has done might as well have remained neutral Austria is as powerful now as she was the day Italy entered the war. Italian pressure did not check the drive in Galicia or relieve the hard pushed Russians, nor have the Ietlians asquired any considerable Austrian territory.

It is true that they have been fighting under great difficulties, but as magnificently prepared as the Italian army was supposed to be, it seems to the far-away observer that a greater showing should have been made.

It has been reported from time to time that an expeditionary force had been dispatched to operate against the Turks, but so far this force has failed to develop. Possibly its operations are hidden by the censor, but had anything of moment been accomplished it would have been heralded to the world.

Now it is announced that the Italians are too busy to send aid forces to the Balkans as the new Austrian offensive is keeping them fully occupied. Just what the Italians have been doing is a mystery which only the end of the war will reveal.

W. D. Henderson, former chief of police of Hopewell, was fined $200 and sentenced to fifteen days in jail, following his plea of guilty yesterday afternoon in two cases in which he was charged with violations of the liquor laws.

ALL WRONG.

The Mistake is Made by Many Alexandria Citizens.

Look for the cause of backache.

To be cured you must know the cause.

If it's weak kidneys you must set the kidneys working right.

An Alexandria resident tells you how.

Mrs. W. A. Waring, 304 north Patrick Street, Alexandria, says: "I suffered awfully at times from my back and inflammation of the bladder. I used to be in such misery during these attacks that I had to have injections of morphine to relieve the pain. My back ached so badly that I thought it would kill me. The kidney secretions caused me terrible suffering and the pains in the top and back of my head nearly drove me insane. I often got so dizzy that I could hardly keep from falling and I felt sick all over. Nothing did me any good until I began taking Doan's Kidney Pills, procured at E. S. Leadbeater's & Son's Drug Store. The first box gave me great relief. I used several boxes altogether and they stopped that awful pain in my back and head and made my kidneys normal. Since then, I have taken Doan's Kidney Pills as soon as I have noticed any signs of kidney disorder and they have never failed to give me quick relief."

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work.

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for *Special Instructions* on your case and 64-page book, "Home Treatment for Women," in plain wrapper. N.C. 121
